

WHY BADEN-WUERTTEMBERG?

Baden-Wuerttemberg is a leading location for lightweight technology. The automobile was invented here in 1886, and the heart of the German auto and machinery industry is still beating strong. Lightweight design in architecture has its origins here – with the lightweight technology sector always opening up new possibilities.

The entire supply chain that is needed for intelligent lightweighting is to be found here – from research and development to technical design and simulation as well as manufacturing and production.

POWERED BY LEICHTBAU BW GMBH

Leichtbau BW GmbH is a non-profit economic development corporation for the promotion of trade, industry and science. It represents a network of more than 1,600 companies and over 220 research institutions in the field of lightweighting technology, being the largest network of its kind in the world.

The networking platform helps small and mid-size businesses promote and market innovations in the lightweighting sector and furthers innovation and technology development by matching appropriate partners from academic or industrial backgrounds.

5TH TECHNOLOGY DAY HYBRID LIGHTWEIGHTING

»25-26/06/2018«

Internationales Congresszentrum (ICS) Messe Stuttgart

Facts & Figures

INFORMATIVE, INNOVATIVE, INTERNATIONAL!

For the fifth year in a row, experts and users from the lightweight technology industry will convene at the "Technology Day Hybrid Lightweighting" in Stuttgart. The first day of the conference and exhibition event in the ICS Messe Stuttgart will feature experts from research institutes and the industrial sector presenting the newest developments and current solutions in lightweight technology. The second day will offer visitors the opportunity to participate in an organized business matching as part of our export forum and to take advantage of our forum to exchange information on start-up and investment opportunities.

overall Score 
1.97

„There were several questions that were asked after our presentation at the session. Several participants came to our stand later for more information. It is definitely worth it to be a presenter and exhibitor at the Technology Day.“
Eugen Pfeifer, AutoTeam GmbH

18  exhibitors
